### PROFILE

Aspiring software engineer with a strong foundation in frontend development and a passion for building impactful digital experiences. I'm currently training at NIIT to deepen my understanding of software engineering principles, including both frontend and backend development. I'm seeking an internship opportunity to grow through real-world projects, contribute to meaningful work, and connect with professionals in the tech space. My goal is to continually improve through learning, collaboration, and hands-on experience.

### EXPERIENCE

Currently no formal experience – actively seeking internships to gain industry exposure.

### EDUCATION

#### NIIT (National Institute of Information Technology) – Software Engineering Program

**Currently enrolled**

Pursuing a comprehensive program in software engineering focused on modern development practices, tools, and technologies.

#### Babcock University – B.Sc. Information Technology

**(Oct 2023 – Oct 2024)**

Completed foundational year in Information Technology before transitioning to a more practical, skills-focused path in software engineering at NIIT.

#### The Odin's Project - *Foundations* Course

**Completed**

### SKILL

- Frontend: HTML, CSS, JavaScript
- Programming (Basic knowledge): C, C++, SQL
- Backend (Currently Learning): Java, MongoDB
- Tools: Git, GitHub

### PROJECTS

- Odin Recipes: A basic recipe website built using HTML to practice semantic structure and page linking.  
<https://msev7n.github.io/odin-recipes/>
- Rock Paper Scissors (RPS): A simple game that uses JavaScript and DOM manipulation to interact with users and respond to clicks.  
<https://msev7n.github.io/RPS/>
